LGBT Refugees

Are you gay, lesbian, bisexual, transgender, queer and a refugee, who has got asylum in Denmark? Or do you know someone who is? Check out LGBT Refugees!

Who are we?

LGBT Refugees is a group for LGBT refugees who want a network with other LGBT persons facing some of the same situations and issues related to being LGBT and refugee. The group consists of LGBT refugees and volunteers from the organization LGBT Asylum. All LGBT refugees with residence in Denmark are welcome in the group - we have members living in all parts of the country.

What do we do?

The group is a space for support and empowerment, and for having a good time. The members of the group can share experiences and support each other regarding LGBT-related issues, issues related to living in exile or practical matters related to for example housing, social services, employment or education. Twice a year we organize weekend camps or seminars - our regular meetings in-between are held in Copenhagen.
